

LIVE-STREAMING & STUDIO

ver. 2021

ABOUT US

INX believes in offering a **comprehensive and personalised experience**, aiming to propose only the best of our expertise in turning creative ideas into reality.

INX is a multi-disciplined **Event Management Agency** providing expertise in both events management and production works since 2012.

INX offers a full suite of event related services from Visual **Conceptualisation**, Event **Marketing**, **Campaign Promotions**, **Audience Engagement Systems**, **Live Event Management** to Post Event **Publicity Works**.

WITH INX SERVICES

Reach And Interact With Your Audience In Real-time Over The Internet

Be connected with your audiences in real time whether you are streaming a performance, conference, award ceremony or hosting a live Q&A professionally.

Clients will be able to concentrate fully on the programme and not fret over speakers or artistes management at each individual remote sites.

Be provided with experienced production and project management team that will be able to provide full technical support for all stakeholders.

FUNCTIONALITY

ADD ON SOLUTIONS

SOLUTIONS

MULTIPLE REMOTE LOCATION PANEL DISCUSSION

Having panelists speaking from the other side of the world?

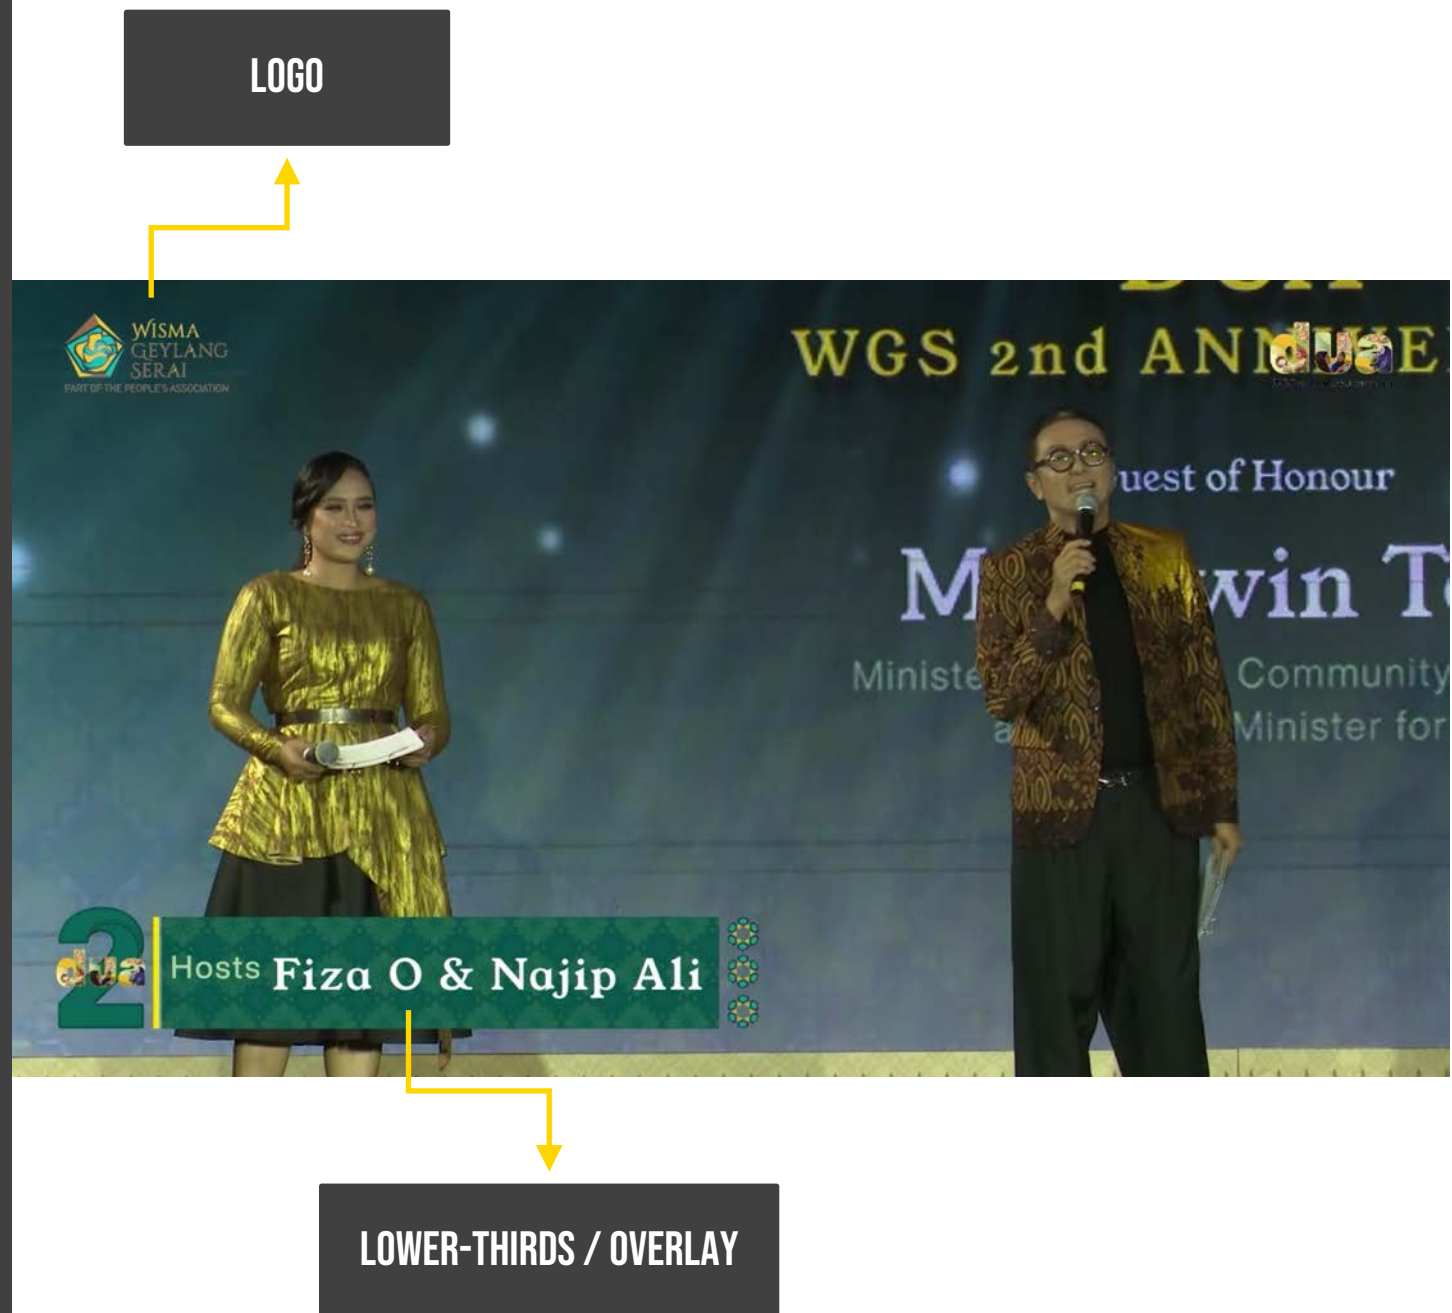

INX's livestreaming capabilities will be able to bring all the speakers together virtually and have them all appear in one screen for a virtual panel discussion session.

SOLUTIONS

DIGITAL ON SCREEN GRAPHICS

Working together, our graphic design experts and our on-site graphic specialist will be able to add in digital on-screen graphics such as logos, overlays, and lower thirds, to add a professional touch to your live-stream event.

SOLUTIONS

GREEN SCREEN KEYING

Step up your virtual keynote speeches with our unique annotatable green screens. Keynote speakers/ presenters will be able to make annotations on their slides while conducting their presentation, enhancing the overall virtual experience for the audience.

SOLUTIONS

AUDIENCE INTERACTION

With our own Content Delivery Network (CDN), our programming team will be able to customise the layout of your live-stream microsite with the ability to integrate audience interaction platform (e.g., Pigeonhole Live, etc.).
